### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Receipt is acknowledged of the amendment filed 08/29/2006.

The rejections under 35 USC, first paragraph are hereby withdrawn.

The following are new rejections based on the newly amended claims:

#### ***Claim Rejections - 35 USC § 112***

Claims 27, 29, 31-33, 35-40, 44, 48-54, 56-64, 67, 71-76 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant's have amended independent claims 27 and 52 to include the limitation "wherein the crosslinking comprises the use of" methylene bis-acrylamide. This language broadens the method by including other agents not supported by the specification. The crosslinking reaction occurs between polyacrylamide and methylene bis-acrylamide only. This is stated plainly in the specification at page 2, lines 20-26; page 3, lines 22-23; page 5, lines 12-23; page 9, lines 20-22. No other agents are disclosed or taught by the original specification. As such, the new language entails new matter.

Similarly, claims 75 and 76 claim the polymer gel "further comprising" the molecular formula set out at page 9, lines 24-25, and Figure 1. The instant formulation has this formula , but does not "further comprise" said formula. As above, no other formula is disclosed in the specification. These claims are considered new matter.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
